JANUARY, 1979

Price: \$1.00

Dear Customer:

Thank you for your tremendous response to our Christmas Supplement.

After analyzing our sales for 1978, it is apparent that the coin business is better than ever. It is also readily evident that collectors and investors are more quality-conscious than ever before. One of our goals during 1979 is to bring you the highest possible quality available on the market. We will spare no effort to bring the best to our customers!

Late winter and early spring are traditionally busy times, so please read this and subsequent Supplements carefully. Many new purchases are sure to be included. Some items debuting in this issue are a small group of superb Shield Nickels, many tough Buffaloes and a collection of Morgans including many superb pieces and a rare circulated 1895.

Please utilize our WATS line for orders over \$100.00, and don't forget to list alternate choices when possible. Alternate choices will be used only when necessary. Your alternate choices total need not exactly agree with the total amount of your primary order. Adjustments will be made automatically.

Best Regards,

Ron Howard

HALF EAGLES

1795 AU (50) Small Eagle, ever popular type	6,950.00
1795 Gem BU (65) Small Eagle. Lovely prooflike surfaces. The strike is so sharp that it defies belief. How startling to see clearly separated breast feathers on the Eagle! Bold center dots. No adjustment marks. Perfectly centered, with full denticles. There is no limit to the potential of this desirable early gold-type coin. It may be many years before there is another chance to acquire an example of or near this quality. Of added interest is the fact that this is the first denomination of gold to be struck by the U.S. Mint (see color photo)	19,500.00

1861 D Ch AU (50+) Lustrous and well struck. By far the rarest Dahlonega Half Eagle. A classic rarity always in short supply and heavy demand. Probably less than fifty known in all grades. Needless to say, this is one of the finest known	9,750.00
1861 C AU (50) Surely one of the best strikes upon one of the nicest planchets used for this issue. Rare in its own right, and quite popular because of its mint of origin and the era during which it was struck. Lustrous and very pleasing	3,450.00
1872 Ch AU (50+) Philadelphia Half Eagles of the 1860's and 1870's are among the most difficult of all U.S. Gold coins to locate in high grades. Mintages were small, and most manufactured were circulated. Many dates, including 1872, are virtually unobtainable in mint state	2,200.00

A Final Opportunity . . .

With only a few superb Indian Head Eagles still available, we hope you're not among those who, in retrospect, wish they had taken advantage of this attractive offer!

An Exciting Offering Of Superb Indian Tens

Is the Indian Head Eagle an endangered species? We think so — at least in superb condition! Modern, quality-conscious collectors and investors have eagerly purchased, and put away, virtually every superb example of the Indian Head type Ten Dollar gold piece that has come on the numismatic market for several years. It has thus become one of the toughest U.S. gold type coins to find in superb condition.

An almost unbelievable opportunity was recently presented, on an exclusive basis, to Steve Ivy Rare Coin Co. We were able to choose a few superb examples from several hundred original, Uncirculated Indian Head eagles that had been held for decades deep within a bank vault in Switzerland. The coins we brought home to Dallas are the finest of this type we've ever seen! Even many years ago, before top quality coins such as these became a rapidly disappearing commodity, condition this nice was rare.

We can remember when Type One Gold Dollars were in relatively plentiful supply in superb condition — now bids of a thousand dollars, or more, often go unfulfilled! Rolls of Liberty Eagles once emerged regularly from European vaults — we recall “cherry picking” superb 1901-S Eagles at seventy dollars each! The best of those “common” type coins would likely bring \$1,500.00 today. Similar tales can be told for virtually every major type of United State gold coins.

Our point is — this may be one of the last opportunities ever to purchase truly superb, original examples of one of our country's most beautiful coins — the Indian Head Eagle. Designed by the famed Augustus St. Gaudens, the noble depiction of the American Indian made its debut in 1907. Production was ceased in 1933. Subsequently, the Indian Head Eagle has become immensely popular with date and type coin collectors — as evidenced by the \$92,500.00 recently realized by a specimen of the extremely rare 1933 issue, and as evidenced by the \$1,000-\$1,250.00 “bid” range listed for MS-65+ type coins by the “Coin Dealer Newsletter”. Incidentally, that publication lists the Indian head Eagle as one of the top two toughest 20th Century gold type coins to obtain in superb condition.

Your coin will most likely be dated 1932 — a “common” date. But remember — your coin will be in decidedly uncommon condition — Superb Gem Brilliant Uncirculated (65+)! Each coin is fully struck, with magnificent luster beaming from surfaces relatively free of those bothersome bagmarks that usually plague coins of this type. Each coin is uncleaned — never dipped or rubbed in any way — and thus exhibits a natural tone acquired over the decades. This alluring patina gives each piece true character — that intangible, indescribable quality that precious few coins possess.

The condition of this small group of superior coins is uniformly outstanding — the last one sold will be as nice as the first. We nonetheless suggest you call our toll-free WATS line, (1-800-527-4503) to reserve your specimen. Ask for the Rare Coin Department, and one of our courteous salesmen will take your order. We accept Master Charge, BankAmericard/VISA, and American Express. Free lay-away is also available. Each coin is priced fairly at \$1,075.

Dear Customer,

While the rare coin industry has experienced considerable growth in the last decade, we at Steve Ivy Rare Coin Company feel that tremendous potential still exists. Here are some of the reasons why:

The coin business is enjoying increased publicity. The Anthony Dollar, the GSA Sale, the recent trading of major rarities, the soaring price of gold and more articles about rare coin investments in major publications are some of the factors that make numismatics newsworthy on a national basis. Publicity can bring thousands of new customers into the business in the future.

The steady rise in overall coin prices has far exceeded the rewards of more conventional investment forms. The realization of this phenomenon by traditionally conservative investors will undoubtedly attract large sums of capital to the numismatic marketplace.

The standards and ethics of the industry will continue to improve and stabilize. Effective policies and active organizations are the biggest needs of our business today. Fulfillment of these needs can only serve to help all of us involved in rare coins.

Knowledge, and therefore confidence, is continually being dispersed among collectors and investors. The more of these qualities a potential buyer possesses, the more likely he is to invest significant sums of money.

All of these factors, and more, lead us to believe firmly in the future of rare coins. Coupled with the fact that there will be an effectively diminishing supply of rare coins in the future, this belief supports an obvious prediction about the prices of high quality coins.

If you share our viewpoints, please feel free to contact us to discuss rare coin investment strategy. We'll be happy to help in any way we can!

1806 Ch AU (55+) An exceedingly lustrous and very pleasant example of this tough type coin. A numismatic showpiece. The reverse is fully mint state.	26,500.00

HALF EAGLES

1795 AU (50) Small Eagle, ever popular type	6,950.00
1795 Gem BU (65) Small Eagle. Lovely prooflike surfaces. The strike is so sharp that it defies belief. How startling to see clearly separated breast feathers on the Eagle! Bold center dots. No ad- justment marks. Perfectly centered, with full denticles. There is no limit to the potential of this desirable early gold-type coin. It may be many years before there is another chance to ac- quire an example of or near this quali- ty. Of added interest is the fact that this is the first denomination of gold to be struck by the U.S. Mint.	19,500.00

1861-C AU (50) Surely one of the best strikes upon one of the nicest plan- chets used for this issue. Rare in its own right, and quite popular because of its mint of origin and the era during which it was struck. Lustrous and very pleas- ing.	3,450.00
1872 Ch AU (50+) Philadelphia Half Eagles of the 1860's and 1870's are among the most difficult of all U.S. Gold coins to locate in high grades. Mintages were small, and most manufactured were circulated. Many dates, including 1872, are virtually unobtainable in mint state.	2,200.00

Commemorative Halves

Choice Brilliant Uncirculated (60+)

A Commemorative issue which has seen no circulation and has full luster. The coin will be completely as struck. The coin may have bagmarks which were acquired through normal handling through the years. Commemoratives in this grade are of better than average quality uncirculated specimens.

Gem Brilliant Uncirculated (65)

This is an uncirculated coin which has a strong strike for the issue and a minimum number of bagmarks. These coins will have full brilliance, but may be naturally toned. Commemoratives are seldom found any better than this. In short, coins which meet this grade are the finest quality available on the market.

It has taken quite a bit of searching to make this selection available to you. Please take advantage of the opportunity.

1875 Gem BU (65) With a scant production of only 420 pieces, the 1875 Gold Dollar has one of the lowest mintages of any regularly issued U.S. gold coin. QUARTER EAGLES

1796 Ch AU (55) With Stars Excessively rare. The only year of type with sixteen stars on the obverse. Glittering prooflike surfaces. Over the last half-century, only about once every four years has a coin of this quality been available, and many of those were no doubt duplicate offerings of the same example. A numismatic showpiece. The reverse is fully mint state.	26,500 00
1802 Ch AU (50+) Nice deep yellow gold color. This example exhibits an abundance of mint luster. An ideal type coin and a nice example of early gold. In our opinion coins such as this are underrated on today's market. (see color photo)	5,950 00

The most complete authoritative reference book ever published on U.S. Commemorative Coins.

In recent years, commemorative coins have generated an unpredictably high degree of interest and enthusiasm among collectors from coast to coast. They have now become a major segment of the rare coin market. Yet, until now, no complete factual work on the diverse and oftentimes intriguing world of commemorative coins has ever been compiled.

In **A Comprehensive Guide to United States Commemorative Coins**, James S. Iacovo, the nationally-known New England numismatist and recognized authority on U.S. Commemoratives, has assembled a uniquely impressive and functional ready-reference detailing the grading, scarcity and investment potential of every silver and gold U.S. Commemorative issue.

For the past two and a half years, Mr. Iacovo has undertaken the difficult and time-consuming task of preparing a book that, for the first time, defines in precise terms what constitutes MS60, MS65 and MS65+ commemorative coins. Everything is covered . . . from grading, surface peculiarities, luster and abrasions . . . to pricing, pricing premiums and pricing trends . . . to evaluations and Iacovo's special "Buying Tips" that make this such a valuable ready-reference source.

A Comprehensive Guide to United States Commemorative Coins. It is a book no numismatist should be without. And if you collect commemoratives, it is a book you cannot be without.

Only a limited number of First Edition copies are available. We are releasing them on a first come, first served basis, so be sure to order your Commemorative Guide today. The first one hundred orders will receive numbered and autographed copies. This book is only available by mail.

Catalog Supplement

APRIL, 1979

Price: \$1.00

Dear Customer,

This issue of our Catalog Supplement is our first to feature grading terminology as prescribed by the Official A.N.A. Grading Standards for United States Coins. We would like to emphasize the point that our strict grading standards have not changed — only the way in which the various grades are written.

There are only two basic, easy to understand changes:

First, all uncirculated coins are designated "MS" (for Mint State), followed by the appropriate quantitative grade. All proof coins are designated by the word "Proof" and the proper quantitative grade.

Second, there are no more "+" grades. Instead of 60+, there is now 63. Instead of 65+, there is now 67 or 69. The 50+ grade is now written as 53, and 55+ as 58.

Thus, our previous Gem BU (65) simply becomes MS (65). Choice BU (60+) is now MS (63). Choice AU (55+) is written as AU (58). With rare exceptions, Gem BU (65+) is now MS (67).

We have been using the quantitative system of grading for several years. Of course, coins sold prior to the new method outlined above can be easily converted.

If you have any questions concerning our grading standards, please do not hesitate to ask — we'll be glad to help.

Ron Howard

The most complete authoritative reference book ever published on U.S. Commemorative Coins.

In recent years, commemorative coins have generated an unpredictably high degree of interest and enthusiasm among collectors from coast to coast. They have now become a major segment of the rare coin market. Yet, until now, no complete factual work on the diverse and oftentimes intriguing world of commemorative coins has ever been compiled.

In **A Comprehensive Guide to United States Commemorative Coins**, James S. Iacovo, the nationally-known New England numismatist and recognized authority on U.S. Commemoratives, has assembled a uniquely impressive and functional ready-reference detailing the grading, scarcity and investment potential of every silver and gold U.S. Commemorative issue.

For the past two and a half years, Mr. Iacovo has undertaken the difficult and time-consuming task of preparing a book that, for the first time, defines in precise terms what constitutes MS60, MS65 and MS65+ commemorative coins. Everything is covered . . . from grading, surface peculiarities, luster and abrasions . . . to

pricing, pricing premiums and pricing trends . . . to evaluations and Iacovo's special "Buying Tips" that make this such a valuable ready-reference source.

Dear Customer,

Thankyou for your gratifying response to our last Supplement. As always, many of the finest coins we offered were quickly sold. But, as you can see from examining our current inventory, many exciting new purchases have been added.

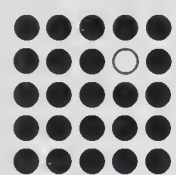

We do as much as possible to prevent disappointing "sold outs," but you can help also — when possible, please list alternate choices. We will use your alternate only if your first choice is sold out. Your second choice(s) need not equal the amount of your original order — we will automatically refund the difference to you.

Don't forget that we accept VISA, Master Charge, and American Express cards. Call toll free on our WATS line (1-800-527-6810) to reserve your order if it is \$100.00 or over. Many customers purchase coins through our lay-away plan. All of these conveniences, plus our courteous and efficient staff and the most modern computer technology employed by any numismatic dealership, explain our high percentage of repeat customers.

If you are not yet a Steve Ivy regular, we hope you will soon give us the opportunity to impress you. If you are, thanks for the patronage — we look forward to serving you often in the future.

---------------------	--------

QUARTER EAGLES

1802 AU (53) Nice deep yellow gold color. This example exhibits an abundance of mint luster. An ideal type coin and a nice example of early gold. In our opinion coins such as this are underrated on today's market. (see color photo)	5,950.00

1884 MS (63) Rare. Virtually of gem quality (see color photo)	3,950.00

FOUR DOLLAR GOLD

1880 Proof (67) Flowing Hair. An exceptionally beautiful example of this great American gold rarity. Akers states that 'approximately 25 1880 Flowing Hair Stellas are known. This means that (it) is 12 to 15 times as rare as the 1879.' Since an 1879 of this quality would bring well over \$30,000, we feel that this piece represents a tremendous value on today's quality-conscious market. Proof gold coins are beginning a tremendous surge in popularity, as are superb gold type coins. This Stella combines the best of both of those worlds. (see color photo)	64,500.00

HALF EAGLES

1806 VF (30)	1,175.00

1852 MS (65) Sharp, with rich, attractive color. No Motto gold of this quality is almost impossible to find. (see color photo)	2,950.00
1861-C AU (50) Surely one of the best strikes upon one of the nicest planchets used for this issue. Rare in its own right, and quite popular because of its mint of origin and the era during which it was struck. Lustrous and very pleasing. (see color photo)	3,450.00

The most complete authoritative reference book ever published on U.S. Commemorative Coins.

In recent years, commemorative coins have generated an unpredictably high degree of interest and enthusiasm among collectors from coast to coast. They have now become a major segment of the rare coin market. Yet, until now, no complete factual work on the diverse and oftentimes intriguing world of commemorative coins has ever been compiled.

In **A Comprehensive Guide to United States Commemorative Coins**, James S. Iacovo, the nationally-known New England numismatist and recognized authority on U.S. Commemoratives, has assembled a uniquely impressive and functional ready-reference detailing the grading, scarcity and investment potential of every silver and gold U.S. Commemorative issue.

For the past two and a half years, Mr. Iacovo has undertaken the difficult and time-consuming task of preparing a book that, for the first time, defines in precise terms what constitutes MS60, MS65 and MS65+ commemorative coins. Everything is covered . . . from grading, surface peculiarities, luster and abrasions . . . to

pricing, pricing premiums and pricing trends . . . to evaluations and Iacovo's special "Buying Tips" that make this such a valuable ready-reference source.

A Comprehensive Guide to United States Commemorative Coins. It is a book no numismatist should be without. And if you collect commemoratives, it is a book you cannot be without.

A Comprehensive Guide to United States Commemorative Coins.

**The most complete authoritative
reference book ever published
on U.S. Commemorative Coins.**

"Compared to other rare coin opportunities, collecting and investing in U.S. Commemorative Coins was last on the numismatist's list. But now, all that has changed: during the last year or year and a half, commemorative coins have been generating an unexpectedly high degree of interest and enthusiasm among collectors from coast to coast. The result is a booming new market for you to enter and profit from. But before you do, it would be wise to first invest in the one book that can turn your commemorative coin collection into a commemorative coin bonanza.

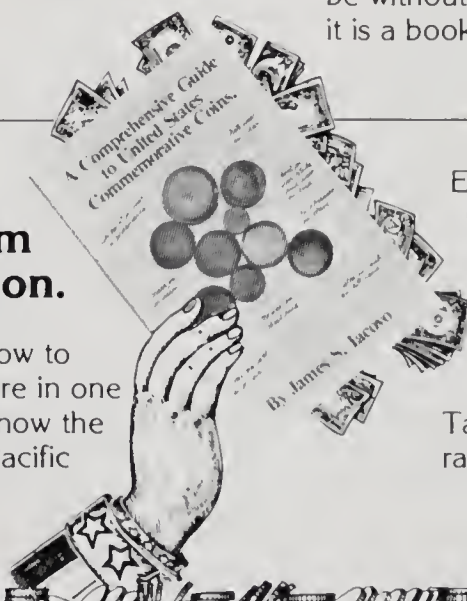

The book that puts it all together.

Mr. Iacovo spent two and a half years undertaking the difficult and time-consuming task of preparing a book that covers everything an aspiring or accomplished numismatist needs to know about U.S. Commemorative Coins. The book defines, in precise terms, what constitutes MS60, MS65 and MS65+ commemorative coins. It covers in detail all aspects of grading, specific surface peculiarities, luster and abrasions. Its pages reveal facts that tell you about pricing, pricing premiums and pricing trends. Included are many charts, coin evaluations and Mr. Iacovo's special "Buying Tips" that combine to make this major work the most valuable and useful ready-reference source on U.S. Commemorative Coins you can own. It is a book no numismatist should be without. And, if you collect commemoratives, it is a book you cannot be without.

A Commemorative Guide is a compendium of profitable information.

Virtually everything you need to know to make the most profitable decisions is here in one easy-to-use reference source. Need to know the history of the retail price for a Panama-Pacific

Exposition Gold Dollar? Your **Commemorative Guide** has the answer. What should you look for when inspecting a York Half Dollar? Your **Commemorative Guide** tells you.

Aside from the reference pricing charts, individual coin evaluations and thorough index are the well-researched and intelligent Statistical Tables on both Silver and Gold U.S. Commemorative Coins. No critical area is left undiscussed.

Catalog Supplement

JULY, 1979

Price: \$1.00

Dear Customer,

If you are interested in superb quality coins at competitive prices, then this issue of our Catalog Supplement is of special significance to you.

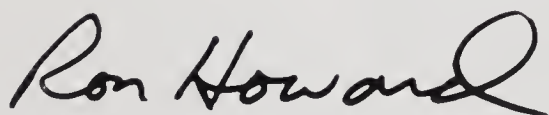

Our buyers are always diligently searching for the kind of numismatic material that our customers have grown to expect from Steve Ivy Rare Coin Company. Recently, they hit the jackpot! A concise yet superb collection of United States coins from Half Cents to High Reliefs was uncovered in New England and purchased by our company. The collection contained about a hundred pieces. The most delightful fact about the group was that over 75% of the coins graded MS (65) or better, with nearly half qualifying as MS (67)! Even a few spectacular pieces earned the elite MS (69) label (A fabulous High Relief and a pristine Type One Gold Dollar, for examples).

Never before have we offered such a selection of portfolio quality numismatic material in one of our Catalogue Supplements. It may be very important that you call to reserve the coins you wish to have, and that you have alternate selections in mind when you call.

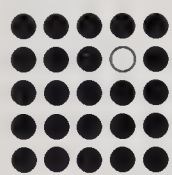

If you are a serious investor with at least two thousand dollars available to invest in superb quality U.S. coins, there has never been a better time for you to contact our investment counselors. Our inventory is replete with the types of coins and the kind of quality that have proven to be so successful in the past. We have the experience, knowledge, reputation and inventory selection necessary to help you wisely invest in the numismatic market. Just ask our receptionist to connect you with our numismatic investment department — and take the first step in a rewarding and enriching experience.

If you are planning to attend this year's ANA convention in St. Louis July 28 thru August 2, be sure to come by our tables, J and K. If you have material for sale, if you would like to examine selections from our inventory, or if you have specific coins you want us to search for at the ANA, please give us a call either before or during the show. If what you want is at the show, we will find it for you. We will have two telephone lines placed directly at our convention tables; if you wish to contact us at the convention, call our Dallas offices on our WATS line for the numbers in St. Louis.

We hope to see or hear from you soon!

1893-S EF (48) Well struck, very lustrous. Many so-called AU pieces are not equal to this example. This coin would indeed fit nicely into any high grade Morgan Dollar set. (see color photo)	4,950 00
1893-S MS (65) Semi-prooflike. Needle-sharp strike. Light, natural golden toning upon immaculate surfaces, which are free of any but the most trivial marks. Conservatively placed at the MS (65) level in deference to its extreme rarity. It is with great pride that Steve Ivy Rare Coin Company unveils this fabulous rarity to the numismatic world. Never before has this coin been offered to collectors at public or private sale. Our price represents an excellent value. In May, 1978, Steve Ivy Rare Coin Company sold an 1893-S of comparable quality for \$47,500. In November of that year, a specimen sold in a major auction sale in New York City for \$52,000. Our asking price is only modestly above those two records, while Morgan Dollars, as a series, have increased dramatically in popularity and value during the last year. The incredible investment potential of this coin is undeniable. No other U.S. coin can promise such rich results.	57,500 00

Before you rush into the commemorative boom, rush into this great new book.

A Comprehensive Guide to United States Commemorative Coins.

**The most complete authoritative
reference book ever published
on U.S. Commemorative Coins.**

Compared to other rare coin opportunities, collecting and investing in U.S. Commemorative Coins was last on the numismatist's list. But now, all that has changed: during the last year or year and a half, commemorative coins have been generating an unexpectedly high degree of interest and enthusiasm among collectors from coast to coast. The result is a booming new market for you to enter and profit from. But before you do, it would be wise to first invest in the one book that can turn your commemorative coin collection into a commemorative coin bonanza.

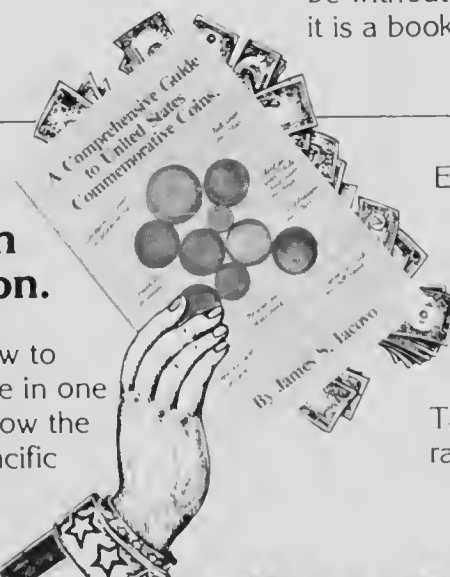

The book that puts it all together.

Mr. Iacovo spent two and a half years undertaking the difficult and time-consuming task of preparing a book that covers everything an aspiring or accomplished numismatist needs to know about U.S. Commemorative Coins. The book defines, in precise terms, what constitutes MS60, MS65 and MS65+ commemorative coins. It covers in detail all aspects of grading, specific surface peculiarities, luster and abrasions. Its pages reveal facts that tell you about pricing, pricing premiums and pricing trends. Included are many charts, coin evaluations and Mr. Iacovo's special "Buying Tips" that combine to make this major work the most valuable and useful ready-reference source on U.S. Commemorative Coins you can own. It is a book no numismatist should be without. And, if you collect commemoratives, it is a book you cannot be without.

A Commemorative Guide is a compendium of profitable information.

Virtually everything you need to know to make the most profitable decisions is here in one easy-to-use reference source. Need to know the history of the retail price for a Panama-Pacific

Exposition Gold Dollar? Your **Commemorative Guide** has the answer. What should you look for when inspecting a York Half Dollar? Your **Commemorative Guide** tells you.

Aside from the reference pricing charts, individual coin evaluations and thorough index are the well-researched and intelligent Statistical Tables on both Silver and Gold U.S. Commemorative Coins. No critical area is left undiscussed.

1893-S MS (65) Semi-prooflike. Needle sharp strike. Light, natural golden toning upon immaculate surfaces, which are free of any but the most trivial marks. Conservatively placed at the MS (65) level in deference to its extreme rarity.	
It is with great pride that Steve Ivy Rare Coin Company unveils this fabulous rarity to the numismatic world. Never before has this coin been offered to collectors at public or private sale.	
Our price represents an excellent value. In May, 1978, Steve Ivy Rare Coin Company sold an 1893-S of comparable quality for \$47,500. In November of that year, a specimen sold in a major auction sale in New York City for \$52,000.	
Our asking price is only modestly above those two records, while Morgan Dollars, as a series, have increased dramatically in popularity and value during the last year.	
The incredible investment potential of this coin is undeniable. No other U.S. coin can promise such rich results.

ONE DOLLAR GOLD

1874 Proof (65) Proof gold coins of 1874 are extremely rare in all denominations. The accuracy of the scant mintage figure of 20 pieces is supported by the virtually non-existent auction records in the last decade for a Proof 1874 Gold Dollar. This pristine specimen is a great sleeper with potential that is, in our opinion, virtually unmatched by any other U.S. gold coin. That's a strong statement for us to make, but it reflects our sincere respect for this important rarity. No amount of money could guarantee the location of another specimen 13,500.00

FOUR DOLLAR GOLD

1880 Proof (67) Flowing Hair. An exceptionally beautiful example of this great American gold rarity. Akers states that approximately 25 1880 Flowing Hair Stellas are known. This means that it is 12 to 15 times as rare as the 1879. Since an 1879 of this quality would bring well over 40,000, we feel that this piece represents a tremendous value on today's quality-conscious market. Proof gold coins are beginning a tremendous surge in popularity, as are superb gold type coins. This Stella combines the best of both of those worlds 79,500.00

LIBERTY SEATED HALVES

1904-O MS (65) Perhaps the most underrated issue of the series. A careful perusal of auction appearances and price lists verifies this coin's undeniable rarity. As numismatics continues its inexorable progress toward greater knowledge and sophistication, the value and rarity of this issue will emerge as commonplace knowledge. Now is an excellent, and perhaps the only, time that a collector can obtain this rarity at a four figure price. We truly hope some foresightful enthusiast takes advantage of this opportunity (see color photo)	8,750.00
1905 MS (67) Superb! Fully struck with alluring, light toning. Void of defects and pleasing in all respect. The rarest Philadelphia mint Barber Half in mint state, and one of the most overlooked Barber rarities of any denomination. We hate to let this one go. (see color photo)	5,950.00
1905 Proof (65) A splendid cameo	2,450.00
1905-O MS (65) An above average strike for this issue, which is the most poorly produced, on the average, of the series. To locate a bonafide MS 65 example is an opportunity that the specialist can ill afford to ignore.	5,950.00

EARLY DOLLAR

1795 AU (55) Draped bust. Lustrous and very pleasing 4,750.00
1795 MS (65) Draped Bust. Even olive and golden toning upon the most pleasing and lustrous surfaces we've ever seen on a coin of this type. Razor sharp strike, with full feathers on the eagle and intricate hair detail on Ms. Liberty. All stars are sharp, as are the folds of the drape. An immensely pleasing coin, and of utmost importance to the advanced type collector (see color photo) 44,500.00

1799 AU (50) Extremely pleasing, no problems. 2,750.00

1801 Proof (67) Superb! A shocking, dazzling, intricately detailed numismatic masterpiece! Representatives of this early type, even in mint state condition, are usually replete with problems-weak strike, adjustment marks, planchet defects, etc. Certainly no business strike (which are extremely rare in uncirculated condition) could compare with this coin. None of the less than ten known proofs could exceed the condition of the piece presently offered.

Ten pieces may be a very optimistic estimate of the number of pieces extant. Some experts state that only 10 to 12 examples of all three dates of the Proof dollars (1801, 1802, and 1803) are known. Walter Breen, a recognized authority on early proof coinage, implies that the 1801 is the rarest of the three dates. Without a doubt, the 1801 is rarer in proof condition than the fabled 1804. The extreme rarity of the earlier Proof dollars, ironically, has prevented their widespread publicity and has deprived many collectors of the knowledge of their existence.

We sincerely feel that this coin, considering its unique combination of rarity, quality, and beauty, is one of the most exciting items available on the numismatic market today. Since six-figure prices for coins are no longer unusual (e.g. the Brasher Doubloon, 1804 Dollars, the 1907 Indian Head Double Eagle-and more on the way in upcoming sales), we feel our price is not at all unreasonable. In fact, when one analyzes the performance of high quality coins over the last few years, our price is entirely justifiable.

This fantastic coin will forever elicit awe and reverence from those who are fortunate enough to view it. When and if it returns to the numismatic marketplace, it will command a degree of respect and attention that is accorded only to a small and select group of great rarities (see color photo) 95,000.00

1871-S MS (67) Superb! Quite likely the finest known of this elusive date. Our price seems reasonable when compared to the four figure prices that superb common dates have been bringing, and the recent records of Quarter Eagles in the 1880's in similar condition. For instance, an 1882 in MS (67) brought \$4,750.00 in the recent Herrman Sale (July, 1979). According to David W. Akers' research, 29 offerings of 1882's in mint state have appeared in 226 major auction sales since 1921, as opposed to only eleven mint state 1871-S's. It is also interesting to note that the average grade of all 1871-S's included in the work was a well-worn VF (36). Rarity and quality are combined in this pristine specimen.	4,500.00

FOUR DOLLAR GOLD

1880 Proof (67) Flowing Hair. An exceptionally beautiful example of this great American gold rarity. Akers states that approximately 25 1880 Flowing Hair Stellas are known. This means that it is 12 to 15 times as rare as the 1879. Since an 1879 of this quality would bring well over 40,000, we feel that this piece represents a tremendous value on today's quality-conscious market. Proof gold coins are beginning a tremendous surge in popularity, as are superb gold type coins. This Stella combines the best of both of those worlds.	79,500.00

REEDED EDGE HALVES

1836 Proof (67) Superb! Beautiful natural toning slowly acquired over the decades. This breathtaking numismatic prize has never been cleaned or injured in any way. Only 1200 specimens were coined, and those extant are highly sought in any grade. Most are circulated—a mint state example is extremely rare, and a gem would no doubt be worth over \$25,000.00. This superb proof, therefore, is reasonably priced at	44,500.00
1837 MS (60) A couple of small facial marks away from a higher grade.	1,350.00
1838-O Proof (65) Since its rarity was recognized by collectors in the mid-1800's, the 1838-O Half Dollar has been regarded by numismatists as one of the most revered and desirable issues in the history of United States coinage.	

All available information points to the existence of about a dozen specimens. No more than twenty were coined. The *Encyclopedia of United States and Colonial Proof Coins* lists nine, and refers to two untraceable examples. Eight different coins have made a total of thirteen appearances in public auction sales in the last forty years. One is circulated; the rest are proofs. This issue is rarer than the 1804 Silver Dollar. Besides its rarity, the 1838-O Half is distinguished by many factors. Not the least of these is the coin's responsibility for initiating the idea of branch mint coin collecting. Before the discovery of the existence of the 1838-O Half and the resultant publicity in the numismatic journals of the era, collectors were scarcely aware of the existence of mintmarked coins. The discovery of this rarity greatly affected this style of collecting which is so popular today.

The 1838-O Half Dollar was the first silver coin struck at a branch mint. It was the first, and is the rarest, product of the historic New Orleans Mint. It can certainly be considered our nation's oldest numismatic rarity that is not a restrike, i.e., struck after the year which the coin is dated. The 1804 Dollar and 1827 Quarter are examples of restrikes. The 1838-O Half Dollar was never restruck—all examples extant were indeed minted in New Orleans in 1838.

This particular example bears the most illustrious pedigree of all the

REEDED EDGE HALVES

known specimens, having been owned by such famous numismatists as Colonel Green, Baldenhofer (1955), Pelletreau (1959), Lester Merkin, Q. David Bowers and Charles Jay (1962).

The coin listed in the 1980 *Redbook* is the James Stack coin, which sold in 1975 for \$50,000.00. As you know, much has happened to our numismatic market since 1975. In the last year, coins accelerated at an unprecedented rate. It is our opinion that, if an 1838-O Half Dollar had been in the Garrett Collection, it would have easily brought a six figure price. We feel confident that the 1804 Dollar, when offered from the Garrett Collection, will bring well in excess of \$300,000.00 and, perhaps, even up to \$500,000.00. That in itself should make this coin even more valuable.

We believe that this numismatic rarity is being made available at about half of what one could reason its worth should be. 115,000.00

LIBERTY SEATED HALVES

1849-O MS (67) Superb! Undoubtedly one of the finest known examples of this issue. Most of the mintage was struck from badly worn and rusted dies, and even mint state examples usually appear no better than MS-60. This gorgeous specimen is destined for an exclusive collection	5,450.00
1858 MS (65) Brilliant, semi-prooflike surfaces	1,850.00
1859 Proof (65) Splendidly toned. A lovely and natural piece that offers instant eye appeal. A shallow lint mark (as made) in the reverse field scarcely detracts. Rare date as a proof.	2,950.00
1873 MS (60) Arrows Scarce two-year type. Light golden toning.	1,450.00
1877-CC MS (67) Superb! Fully struck, with shimmering, semiprooflike surfaces. (see color photo)	3,950.00

EARLY DOLLARS

1795 MS (65) Draped Bust. Even olive and golden toning upon the most pleasing and lustrous surfaces we've ever seen on a coin of this type. Razor sharp strike, with full feathers on the eagle and intricate hair detail on Ms. Liberty. All stars are sharp, as are the folds of the drape. An immensely pleasing coin, and of utmost importance to the advanced type collector (see color photo).	44,500.00
1801 Proof (67) Superb! A shocking, dazzling, intricately detailed numismatic masterpiece! Representatives of this early type, even in mint state condition, are usually replete with problems—weak strike, adjustment marks, planchet defects. Certainly no business strike (which are extremely rare in uncirculated condition) could compare with this coin. None of the less than ten known proofs could exceed the condition of the piece presently offered.	
This fantastic coin will forever elicit awe and reverence from those who are fortunate enough to view it. When and if it returns to the numismatic marketplace, it will command a degree of respect and attention that is accorded only to a small and select group of great rarities.

FOUR DOLLAR GOLD

1880 Proof (67) Flowing Hair. An exceptionally beautiful example of this great American gold rarity. Akers states that approximately 25 1880 Flowing Hair Stellas are known. This means that it is 12 to 15 times as rare as the 1879 Coiled Hair. Since an 1879 of this quality would bring well over 40,000, we feel that this piece represents a tremendous value on today's quality conscious market. Proof gold coins are beginning a tremendous surge in popularity, as are superb gold type coins This Stella combines the best of both of those worlds.	79,500.00

PATTERNS

J-73 Proof (65) 1838 Kneass Head Half Dollar. Deep lavender toning, frosted devices. A lovely example of this beautiful and popular pattern.	4,950.00
J-80 Proof (65) 1838 Half Dollar in silver. Liberty Seated obverse; defiant eagle reverse. A fantastic and rare (R-8) early pattern.	8,950.00
J-1549 Proof (67) Superb! The awesome Half Union, or Fifty Dollar Gold Piece, struck in copper. Small head variety (J-1547 is the large head-both types are of equal rarity, and about fourteen total are known.) At least two of this variety, and one of the other, have been unfortunately gilt (gold plated) to resemble the unique gold specimens housed in the Smithsonian. Along with the 1849 Double Eagle, the gold Half Unions are the most prized and valuable numismatic possessions of that venerable institution. This specimen is a near perfect, non-gilt example, and is unexcelled in quality, even should another one ever be offered, which is not a certainty.	72,500.00
